

ACO Gravel Grid

ACO Gravel Grid

walkable and trafficable

- no ruts
- trafficable by bicycle, motorbike and car
- can be walked on even with high heels
- suitable for easy mobility of prams or wheelchairs
- safe base for garden furniture
- filled mats can withstand loads of up to 300 t/m²

Characteristics

- 5.6 mats are required for 10 m²
- Material: 100 % polypropylene in white or more environmentally friendly: 100 % recycled plastic in grey or black
- integrated fleece
- Made in Germany

Area of use

- Garden paths and terraces
- municipal landscape design (e.g. parks, cemeteries)
- Courtyard areas, parking spaces, access roads and driveways
- Roof surfaces

Easy processing

- Honeycombs with water-permeable fleece
- so-called coffee filter fleece can be cut into shape very easily (e.g. with a cutter knife)
- extra large mats (1200 x 1600 mm) for quick installation
- can be used on gradients of up to 10 %

Order information

ACO Gravel Grid Heavy Duty

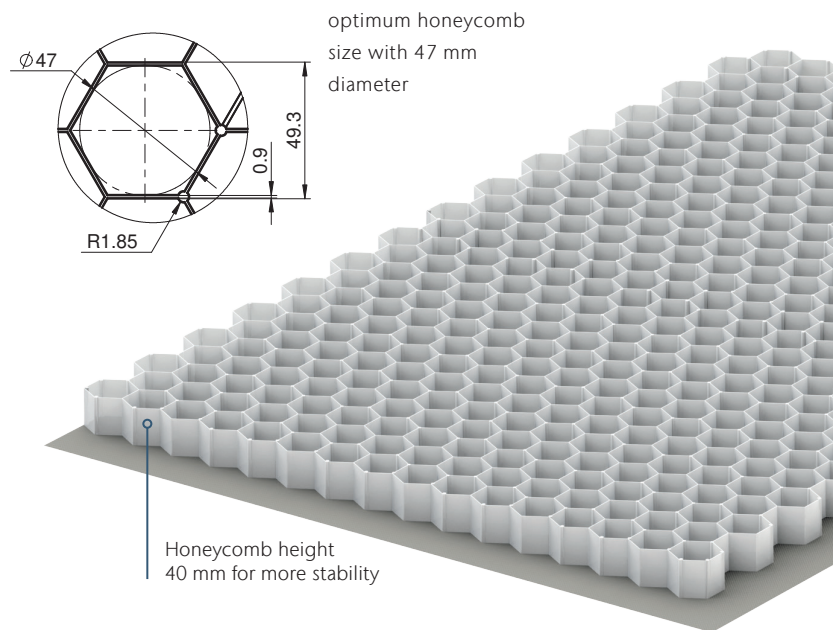

ACO Gravel Grid Heavy Duty

for high loads

- filled mats up to an axle load of 10 t and a permissible total weight of 16 t
- filled mats up to 450 t/m²

Characteristics

- 5.6 mats are required for 10 m²
- Material: 100 % polypropylene in white
- integrated fleece
- Made in Germany

Area of use

- SUVs, caravans, trucks (category G) up to 450 t/m²
- for surfaces with high loads

Easy processing

- Honeycombs with water-permeable fleece
- so-called coffee filter fleece can be cut into shape very easily (e.g. with a cutter knife)
- extra large mats (1200 x 1600 mm) for quick installation
- can be used on gradients of up to 10 %
